No need to worry about future orders, participate in the *Reload Program* and we'll ship a new container to you automatically after we receive your full container!

**All orders are tracked from the time the order is placed until the destruction has been carried out through our 2 party witness procedure.**

**Container Sizes in Gallons:  
0.6, 1.25, 2.5, 5, 12**

## Pharmaceutical Mail-Back Program

- AWS accepts all OTC/Rx and Controlled II-V Substances for disposal.
  - Loose pills are not accepted in Control orders.
  - An Inventory Transfer Form must be completed prior to return shipping of controlled substances.
- Hazardous Waste Substances are not accepted and are listed below.
- Pricing Includes:
  - Cost of container.
  - Step-by-Step Instructions for both packaging and shipping procedures.
  - All packaging and shipping materials including a return shipping label.
- A certificate of destruction is available at an additional cost.

**Examples of items that are considered Hazardous Waste and are NOT accepted in the bucket program:**

**Nitroglycerine, Nicotine, Chemo Therapy Items, Nyquil, Coumadin, Warfarin, Inhalers, Adrenalin (Epi Pens etc.), Phentermine, Insulin, Items containing Mercury or Silver.**

**In Addition to not accepting Hazardous Waste AWS does not accept ANY Toxic or Flammable Hazardous Materials as defined by the DOT, if your company sends in unauthorized items, additional fees to dispose of this waste properly will be assessed.**
